The International Institute for Sustainable Development Climate Change Adaptation and Canadian Infrastructure A review of the ... Thu, 06 Dec 2018 19:22:00 GMT Climate Change Adaptation and Canadian Infrastructure - Observed Climate Change. Temperatures increased across the region from 1895 to 2011, with a regionally averaged warming of about 1.3°F. While precipitation has generally increased, trends are small as compared to natural variability. Both increasing and decreasing trends are observed among various locations, seasons, and time periods of analysis (Ch. 2: Our Changing Climate, Figure 2.12). Wed, 05 Dec 2018 22:22:00 GMT Northwest | National Climate Assessment - Global Climate Data. Explore historical data derived from three sources, all quality-controlled by leading institutions in the field. Also explore future projections derived from global circulation models (GCMs), DOWNSCALED under two scenarios that describe future economic growth and energy use. These are the most comprehensive physically-based models of climate change available and used in the ... Sat, 08 Dec 2018 01:19:00 GMT Global Climate Data - Climate Change Knowledge Portal 2.0 - Feature Climate Change Orientation Seminar Presentations. In

support of Reclamation's new Climate Change Adaptation Strategy, this seminar will provide staff a high-level orientation on climate change, equip staff with talking points about how climate change relates to Reclamation's mission, and summarize initial tools that are available to support Strategy implementation. Wed, 05 Dec 2018 03:24:00 GMT Climate Change | Bureau of Reclamation - The Climate Adaptation Program Area provides resources, tools, and lessons learned for organizations working to adjust to a changing climate to minimize negative effects and take advantage of new opportunities.. Potential negative effects include, but are not limited to: sea level rise, changing growing seasons, increased drought, and destruction of vital species habitat. FedCenter - Climate Adaptation - V Foreword Climate change is a serious risk to poverty reduction and threatens to undo decades of development efforts. As the Johannesburg Declaration on Sustainable Development states, "Poverty and Climate Change - OECD.org -
